PUBLIC EDUCATION

Services for hundreds of thousands of Arizona's most precious and vulnerable citizens are at extreme risk. Arizona's children and the disabled require education, protection, and other basic services.

Public safety officers keep us safe. It's not their fault that the

state's current revenues are insufficient. Arizona's budget crisis requires action now--a temporary sales tax. This temporary measure will ensure that

hundreds of thousands of needy citizens will

continue to receive the services they require. It's

the right thing to do. **VOTE YES on PROPOSITION 100!**
